**Document Conventions**

This manual assumes you have a working knowledge of the internet browser application and are familiar with its basic functions.

As with most applications, there are often several ways to perform the same function in BTExpress. For example, it may be possible to use the shortcut keys, keyboard keys, or mouse to select an item or to indicate the action you want to take. The instructions in this manual do not assume any one of these methods. When the instructions use the term “select,” you can use whichever method you prefer for choosing the specified item.

To help you locate and understand information easily, this manual uses the following convention:

You can use BTExpress to apply for a new Business Tax account and to request a change to your existing Business Tax account. The following sections explain how to use BTExpress.

- If you have never used BTExpress before, you can get an overview of how it works.
- If you do not have an existing Business Tax account with the county Tax Collector’s office or you have another business to register, you will need to apply for a Business Tax account.
- If you have an existing Business Tax account with the county Tax Collector’s office and something has changed for your account, you will need to request a change to your account.
Getting Started

You must have a business located in the county in order to use BTExpress. You will need to know information about the business to answer the questions in BTExpress. For example, BTExpress will ask you to review a list of statements that apply to the business and select “True” or “False”. BTExpress will also ask for information such as the Federal Employer Identification Number (EIN) or Social Security Number (SSN) associated with the Business Tax account, and for an email address that BTExpress will use to send you confirmation and application status emails.

Please note that you cannot save your application in BTExpress and return to it later. If you abandon your application before submitting it and your browser session expires before you return to the application, you will lose all the information you have entered and you will have to start over.

You can only use BTExpress to request a new Business Tax account or modify specific information for an existing Business Tax account. If you need additional assistance with your account, please contact the county Tax Collector’s office.

After Using BTExpress

Once you have applied for a new Business Tax account or have requested a change to an existing Business Tax account, you will receive an email from BTExpress asking you to confirm the application. You must confirm the application by clicking the provided link in the email before the application can be reviewed by the county.

BTExpress will send you an email once the county has approved or rejected your application. If your application was rejected, the email will explain why the county rejected it. If your application was approved, the email will list the required documentation you need to submit to the county (if you did not already submit the documents through BTExpress). You will also need to pay any fees to the county; you can pay in the Tax Collector’s office or online by accessing your Business Tax account at https://hillsborough.county-taxes.com/public.
Once you have submitted the required documentation and paid the balance on your Business Tax account, the county will print a new Business Tax Receipt for you. You will receive your Receipt in person if you completed all the requirements and made your payment (if necessary) in the Tax Collector’s office; otherwise, you will receive your Receipt through the mail after you have submitted all necessary documents and payment. If you submitted a request for a change to an existing Business Tax account, the county will only print a new Business Tax Receipt if the change you submitted affects something on the printed Receipt. For example, if the business name or address changed, then the county would print a new Business Tax Receipt to reflect that change.
You can get a new Business Tax account by applying through BTExpress. The following section explains the process of applying for a new Business Tax account.
